TRAVEL CHECKLIST FOR HUNTERS

Every trip will require different hunting equipment and gear, but following is a good general checklist to provide you with some ideas to customize your own list for an upcoming hunt. Make sure to pack clothing according to the weather conditions forecasted at your destination. Lastly, pack smart, don't take everything you own.

Why even bother with a checklist? Because if you don't, you're probably going to forget something, plain and simple. Odds are, what you forget will be one of the most important things you need. Use a checklist!
